Re: IACUC Protocol "Development of general research and teaching avian collections at the UAA" (2007 Drove 1)

The Institutional Animal Care and Use Committee at the University of Alaska Anchorage has approved your protocol "Development of general research and teaching avian collections at the UAA." Please note that this approval is contingent upon your compliance with all relevant University, city, state, and federal regulations, and requires that you possess all relevant permits before work is initiated. Your protocol ID number is **2007 Drove 1**. Your approval is good for a period of 3 years, and will expire on **January 8, 2010**. You are required to submit an annual report of your activities prior to **January 8** in each of the next two years. This form is available at <http://www.uaa.alaska.edu/iacuc/protocols.html>.

We remind you that all changes in personnel and animal handling protocols must be submitted to the committee prior to such changes taking place. In addition, should you experience any unexpected animal mortalities, illnesses, or injury (to animals or personnel involved with the project), you are required to report such to the IACUC immediately.

Thank you for your support of animal care guidelines. We hope that your research goes well.

Eric S. Murphy, Chair
UAA IACUC
